# 2026

# Hello!

Enter a world where everything is possible. A place full of color and creativity. This is APLI, «**The sticker factory**».

We began in 1932, manufacturing labels, thousands of labels in multitudes of shapes, colors, textures, materials, sizes, etc. Year after year, our catalogue grew.

After many years working with **schools and teachers**, designing materials and inventing products that facilitate and support educational activities, we created APLI Kids.

Today we are present in:

**80**

**Countries where we distribute our products**

**5**

**Production plants**

**6**

**Subsidiaries**

With APLI Kids, our intention is for kids to learn while they enjoy playing with our **games, toys and materials**. Bringing out the artist, mathematician, astronaut or writer that is in them.

**Welcome to** APLI Kids!

# Playing is essential for growing

At APLI Kids we want the little ones to grow up playing.

By playing, the child **stimulates their multiple intelligences**. Also learns to be autonomous and to interact with the world, acquiring an emotional and affective balance.

**APLI Kids educational games encourage the development of cognitive functions, motivate social behavior and promote the acquisition of habits and values.**

To devise our games, we collaborate with **professionals in the educational field and child pedagogy specialists**, who guarantee the appropriate use of the games and adapt them for each age.

APLI Kids games are based on the multiple intelligences identified and defined by the American psychologist Howard Gardner in his **“Theory of multiple intelligences”**.

# Puzzles

What child does not like puzzles?

**Puzzles, domino and memory** to have fun, but above all to learn. As well as amusing themselves, their young minds retain the shapes of the pieces, how they fit together, their colors and patterns.

Puzzles that glow in the dark, puzzles and observation game at the same time, puzzles of association, progressive puzzles, puzzles to learn about the human body... A whole range!
